NOTES:

- This grade range chart is provided as a courtesy to employers; an employer should check directly with a student or graduate for their most up to date class or final rank.
- A new Grade Chart is published each academic year after the Summer term compilation of data is completed for graduates.
- Class rank percentages are computed each year based on the Spring semester statistics for current students.
- The Class of 2028 data will be published in the subsequent academic year grade chart after the cohort completes the foundational courses.
