FAMU Student Health Services

All FAMU students that are enrolled at least half-time (9 credit hours for undergraduate students 6 credit hours for graduate/professional students) are required to have health insurance (FAMU Regulation 2.033). Students who are strictly online, transient, non-degree seeking, dual enrolled high school students, certificate students and less than half time are exempt from this requirement. We strongly recommend that your health insurance provides access to routine preventive care services, emergency care, mental health services, coverage for pre-existing conditions and access to providers in the area you attend classes (Tallahassee, Orlando, Crestview, etc.).

- **Students that already have health insurance coverage must provide documentation through the [online waiver portal](#).**
- **Students that do not provide proof of health insurance coverage by completing the online waiver portal by the deadline (January 11, 2019) will be enrolled in the university-sponsored student health insurance plan. Charges will be placed on your student account.**
