ORLANDO, FLORIDA 32801

Welcome from the Law Library!

We are excited that you have chosen the Florida A&M University College of Law for your legal education. Our role in the law library is to help people find the legal information that they need for their scholarship, their work, and their personal lives. We promote access to justice by supporting your development in law school, as you explore the documents of social justice, and develop the legal information literacy skills you will need to thrive as an attorney and to serve your community.

I believe that the law is a bit like architecture. You are the designer, the builder, and the law library has the raw materials and tools that you will need to construct legal arguments and build legal documents. Please take the time to meet everyone who works at the library. You will find them to be an indispensable asset in both your academic and professional pursuits.

Sincerely,

A handwritten signature in black ink that reads "Yolanda P. Jones".

Dr. Yolanda P. Jones,
Law Library Director and Associate Professor of Law
Florida A&M University College of Law
